

US Army Garrison – Hawaii

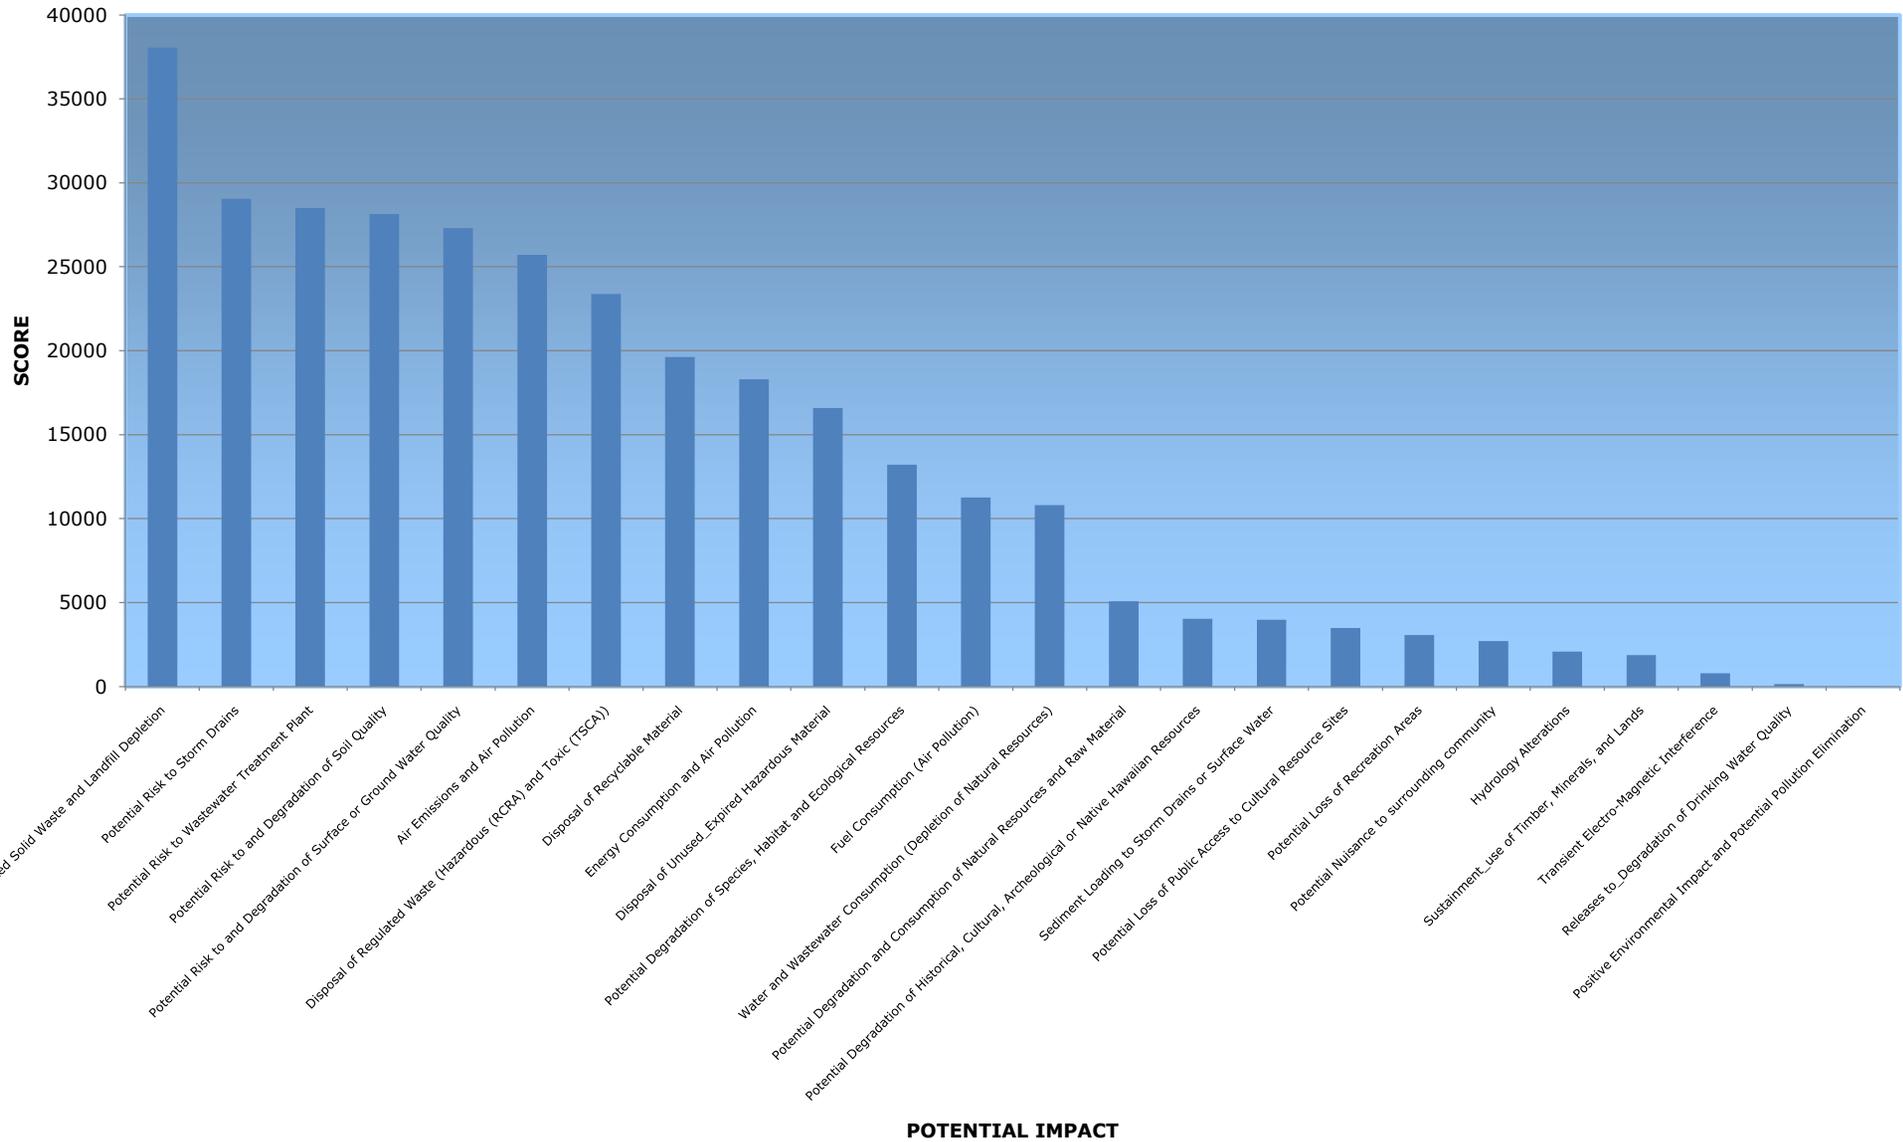

Cumulative Potential Environmental Impact Summary Report

Garrison-Wide

IMPACT	SCORE
Disposal of Unregulated Solid Waste and Landfill Depletion	38064
Potential Risk to Storm Drains	29054
Potential Risk to Wastewater Treatment Plant	28507
Potential Risk to and Degradation of Soil Quality	28143
Potential Risk to and Degradation of Surface or Ground Water Quality	27301
Air Emissions and Air Pollution	25707
Disposal of Regulated Waste (Hazardous (RCRA) and Toxic (TSCA))	23379
Disposal of Recyclable Material	19626
Energy Consumption and Air Pollution	18300
Disposal of Unused_Expired Hazardous Material	16582
Potential Degradation of Species, Habitat and Ecological Resources	13215
Fuel Consumption (Air Pollution)	11250
Water and Wastewater Consumption (Depletion of Natural Resources)	10800
Potential Degradation and Consumption of Natural Resources and Raw Material	5066
Potential Degradation of Historical, Cultural, Archeological or Native Hawaiian Resources	4040
Sediment Loading to Storm Drains or Surface Water	3973
Potential Loss of Public Access to Cultural Resource Sites	3474
Potential Loss of Recreation Areas	3059
Potential Nuisance to surrounding community	2711
Hydrology Alterations	2086
Sustainment_use of Timber, Minerals, and Lands	1869
Transient Electro-Magnetic Interference	780
Releases to_Degradation of Drinking Water Quality	140
Positive Environmental Impact and Potential Pollution Elimination	18
