Know Your Shelter

Special Health Needs Shelters

provide limited support to persons with special health needs. These evacuees must either be capable of taking care of their own needs or be accompanied by a caregiver.

Pet Friendly Shelters

are co-located with some general population shelters. Household pets entering a pet friendly shelter must be caged for safety and owners should provide water and food for their pets.

⚠️ ATTENTION! ⚠️

Hurricane Evacuation Shelters MAY NOT be open during evacuations for a **Tsunami WARNING**. Your local civil defense or emergency management agency will provide locations of tsunami evacuation centers or assembly areas through local media.

Be Informed and Ready

During an emergency or threat of disaster, Civil Defense information will be broadcast over local radio and TV stations. When an evacuation is necessary, these broadcasts may include information about the location of public emergency hurricane shelters in affected areas. More information, including the location of shelters designated for people with special health needs and facilities for household pets may be broadcast, as well as when volunteers will be available to open shelters and direct evacuees to the appropriate areas.

Since public emergency hurricane shelters do not stock supplies, please bring provisions from your emergency supply kit at home. You will need at least seven days worth of food, water, and personal items for yourself, family members, and household pets.

Please review this statewide list of Public Emergency Shelters and note the two or three closest to your home. The shelters are listed by county.
