**FOR IMMEDIATE RELEASE**

## **Wastewater spill at Aliamanu Military Reservation**

**SCHOFIELD BARRACKS, Hawaii** (Oct. 27, 2016) — The Army's Directorate of Public Works (DPW) reports an on-going wastewater spill, in excess of 5,000 gallons, here.

The spill occurred at Aliamanu Military Reservation near the intersection of Aliamanu Drive and Rim Loop. The spill originated at 2:30 p.m. on Oct. 27, 2016, which was accidentally drilled by a contractor. The spill is currently controlled and diverted back to the sanitary sewer system.

A vacuum truck is being used to intercept and prevent the spill from flowing downstream. Cleanup is ongoing and residents are under an emergency water restriction until further notice.

We will provide more information as it becomes available.
