

# Pōhakuloa Training Area

Programmatic  
Environmental  
Impact Statement  
(PEIS) Public Hearing

## PROPOSED ACTION

### **PROGRAMMATIC APPROACH**

Planned modernization of training ranges, training support infrastructure, and the training support facilities over a ten year time period in the cantonment area and at Bradshaw Army Airfield to better meet the readiness needs of military units in Hawaii.

The programmatic approach presents a plan for the future development of PTA, and considers general potential environmental impacts from implementing the long-term plan.

### **TIERED EVALUATION** (initial modernization project)

Construct and operate an Infantry Platoon Battle Area (IPBA) that would include an Infantry Platoon Battle Course (IPBC), Live-fire Shoothouse, and Military Operations on Urban Terrain (MOUT) facility at PTA.

Tiered NEPA documents would focus on specific potential environmental impacts from individual projects within the ten year plan.
