

Deployment Clearance Inspections 2010

Goal of Deployment Clearance Inspections (DCI):

- Clear all hazardous material (HM) and hazardous waste (HW) from all facilities belonging to deploying units.
- Return usable materials to the supply system for redistribution to minimize waste generation.
- Reduce Environmental Compliance liability (Notice of Violation (NOV)) and monetary penalties.
- Reduce potential for hazardous material/hazardous waste spills/releases.
- Ensure a safe working environment for rear detachment and redeploying units.

Deployment Clearance Inspections 2010

Issues of Concern:

- Excess HM Storage
- Incompatible HM storage
- Expired shelf life HM

Areas that must be included in the DCI:

- Motorpool/Hangar
- Admin Facilities
- Quads/Company Areas:
 - Supply Rooms
 - Arms Rooms
- Commo Rooms,
- CONEXes/TRICONs
- Warehouses

Deployment Clearance Inspections 2010

Examples of Hazardous Materials that must be turned-in:

- POL
- Batteries:
 - Lithium batteries
 - Rechargeable batteries
 - Vehicle batteries
- MREs and Unused MRE heaters
- NBC/Decon materials
- Cleaning supplies
- Solvents
- Used Rags/Dry Sweep
- Paint

Deployment Clearance Inspections 2010

DCI Procedures/Checklist:

Completed

1. Provide DPW Environmental Division (656-3088) with Battalion/Company ECOs and Rear Detachment POC names and phone numbers for DCIs.

2. Provide a schedule for each Battalion for initial DCI with DPW Environmental Division and Unit ECOs/ Rear Det POCs.

3. Unit ECOs/ Rear Det POCs will inspect ALL areas and consolidate and segregate new/usable HM (including unopened, expired HM) from unusable items at each location. Unusable items must be placed in the RMSSP (Recyclable and Non-Regulated Waste) or the HWSSP (Hazardous Waste).

Deployment Clearance Inspections 2010

Completed

DCI Procedures/Checklist:

4. Inventory (include NSN, item name, manufacturer, size) and obtain MSDSs for all HM.

5. Contact the Hazardous Materials Control Center (HMCC) at 656-0720 to inspect the HM, extend expiration dates and return usable items to the HMCC.

6. Contact the DPW Environmental Division at 656-3088 to schedule the DCI.

7. DPW Environmental will conduct DCI with unit ECO/POC who must have access to all areas (CONEXes, TRICONs, etc.) for the DCI.

Deployment Clearance Inspections 2010

Completed

DCI Procedures/Checklist:

8. Contact the DPW Transfer and Accumulation Point (TAP) at 656-0866 for pickup/disposal of Hazardous and Non-Regulated Waste.

9. Contact DPW Environmental to conduct final walkthrough to ensure facility is clear of all HM and HW and provide names/numbers for Rear Detachment Commanders.

10. Turn-in your ECO Program Management Book to the DPW Environmental Division Inspector. Check in with DPW Environmental upon returning from deployment to retrieve the ECO Book.
