

# Army Sustainability

■ **Strengthen Army operations:** strengthen Army operational capability by reducing our environmental footprint through more sustainable practices.

■ **Minimize impacts and total ownership costs:** minimize impacts and total ownership costs of Army systems, materiel, facilities, and operations by integrating the principles and practices of sustainability.

■ **Foster a sustainability ethic:** foster an ethic within the Army that takes us beyond environmental compliance to sustainability.

■ **Meet test, training and mission requirements:** meet current and future training, testing, and other mission requirements by sustaining land, air, and water resources.

■ **Enhance well-being:** enhance the well-being of our Soldiers, civilians, families, neighbors, and communities through leadership in sustainability.

■ **Drive innovation:** use innovation, technology, and the principles of sustainability to meet user needs and anticipate future Army challenges.

## “Triple Bottom Line”

The Army’s new *Strategy for the Environment* outlines our long-term vision and sustainability goals as they relate to the triple bottom line of mission, community, and environment.

SUSTAIN THE MISSION.  
SECURE THE FUTURE.
